NARRATIVE / DESCRIPTION

On April 12, 2026, at approximately 2:35 AM, a severe thunderstorm with sustained winds of 65 mph and golf-ball-sized hail impacted the Maple Creek subdivision in Boise, ID. The insured property at 4521 Maple Creek Dr sustained significant damage to the roof, siding, windows, and landscaping. A large oak tree in the front yard was uprooted and fell onto the detached garage, causing structural damage to the garage roof and north wall. Multiple vehicles in the driveway sustained hail damage. The insured reports water intrusion in the master bedroom and upstairs hallway due to compromised roof shingles.
